

# Manual Treatment Tables

## Versatility Series

Fixed height Versatility Treatment Tables feature a reinforced cross-base frame with outrigger base design for optimal floor space efficiency which maximizes patient comfort and maintains a sturdy procedural platform.

### Versatility Flat-top Treatment Table

Model #6K9

- Reinforced cross-brace frame design makes this a safe and sturdy bed for a variety of uses from Chiropractic, to Physical Therapy, to Athletic Department taping, to General Practice.
- The outrigger legs help considerably to stabilize the table. Each leg has two adjustable leveling feet.
- Patient Load: 500lbs. (227kg.)

### Versatility Adjustable-top Treatment Table

Model #6K8

- Pneumatic gas spring adjusts back to infinite positions.
