

Seating

Patient Seating

Designed exclusively for healthcare our patient chairs suit virtually any exam room or waiting area. Frame has textured black powder coated finish on 14-gauge, 7/8 in. tubular steel with non-marring molded black glides. Seat and back pads are formed with high resilience polyurethane foam and CF Stinson fabrics both of which meet or exceed Cal 117 code. Ergonomic "waterfall" seat front reduces pinch points. Stack up to six high.
